

# SLIDER

SLIDER is our petite high quality sign system that offers dual-option message sliding signs. A Vacant/ Occupied slider sign can be used by itself, or integrated with any sign solution where easy and quick access to a dual-option message is required. Combined with, for instance, a nameplate, a room sign or a whiteboard the system creates smart multi-functional signs. SLIDER signs can also be stacked to build multi-row, multi-message sliding signs.

**MAIN FEATURES.** Dual-option message sliding signs.

**OTHER FEATURES.** Sliding plate is available in anodized aluminium or silver coloured plastic.

## CHOOSE YOUR MESSAGE.

Printed inserts with Vacant/Occupied are available in optional language. Inserts can also be ordered with optional dual text messages or graphic/pictogram symbols.
